## HAMMER UNION PRESSURE TRANSDUCERS

### Advantages of STI's Hammer Union Pressure Transducers

- All units come standard with shock and vibration protection.
- Robust connectors machined from one piece of bar stock and each pin has a glass-to-metal seal.
- Microelectronics for internal signal conditioning increases reliability and provides a more compact package.
- All welded stainless steel / Inconel design.
- Digital outputs available with CANbus (J1939, CANopen), RS-232, RS-485.
- Available in WECO® 1502, 2002, 2202, configurations.
- Complies with NACE Standard MR0175/ISO15156 (2003)
- No zero and span pot screws for water ingress to worry about.
- All connectors are bolt-on or welded. Bolt-on uses O-ring seals rather than gaskets.
- WECO® nut fits over carrying handle.
- More comprehensive calibration cert.
- Shorter lead times (1-2 weeks).
- 2-week turnaround for recalibrations.
- More value (Increased features at a lower price).
- Intrinsically safe certification from ATEX and CSA.
