

SUBSEA LOAD CELL

Built To Customer Specifications

Application Requirement:

A global oilfield provider to the offshore oil and gas industry, with a focus on deepwater applications requires a unique depth compensated load cell.

Stellar Technology Solution:

- Modified DTH920 Tension / Compression Load Cell
- Depth Compensated to 10,000 ft.
- Designed to Withstand up to 350 ft-lbs of Axial Torque
- Temperature Compensated: -10°C to 25°C
- Amplified Output Signal
- Subsea Connector
- Accuracy: 0.5% BFSL

Stellar Technology Utilizes...

...its experienced personnel, engineering resources and wide array of product knowledge to provides unique solutions to the oil and gas industries.
