

# Compliance

## Re: RoHS Compliance

To whom it may concern,

It is Stellar Technology's position that the devices we manufacture (pressure & temperature transducers) fall under category 9 set out in Annex IA to Directive No. 2002/96/EC (WEEE). This category covers monitoring and control instruments used in industrial installations.

Currently, Directive 2002/95/EC of the European Parliament and of The Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment per Article 2 excludes category 9 of the WEEE from the scope of RoHS.

We thereby state that we are exempt from RoHS.

Please direct any questions or comments to the undersigned.

Sincerely,  
Robert Haefner
